

How to Close Page Tabs Safely

1. Finish or save any work on the page.
2. Select the close icon on the tab you no longer need.
3. Continue in the tab that becomes active.

The main Register tab remains pinned and cannot be closed. Other tabs can be closed when they are no longer needed.

Closing a tab closes the workspace view; it should not be treated as a substitute for saving, submitting, completing, or canceling the task inside that page.
