How to Preserve Starting Cash During a Pickup

Available Pickup is the amount that can normally be removed while keeping starting cash in the drawer.

1. Compare the proposed pickup with Available Pickup.
2. Use the Available Pickup shortcut when you want to remove all excess cash.
3. If the amount includes starting cash, review the warning carefully.
4. Continue only when removing part of the starting float is intentional and authorized.

A pickup cannot be greater than the total cash currently recorded in the drawer.
