How to Turn Automatic Closing On or Off

1. Open **Settings → Favorite**.
2. Find **Auto Close Favorite Dialog**.
3. Turn it on if the Favorites window should close after one tile is selected.
4. Turn it off if employees need to select several tiles before closing the window.
5. Select **Update**.

This setting changes the selection experience; it does not change which tiles are available or how they add items to the cart.
