

How to Review and Adjust the Cart

Before checkout, compare each cart line with the merchandise in front of you.

- Confirm item name, quantity, price, serial or IMEI, discount, and tax.
- Remove an incorrect line and add the correct one.
- Use the intended editing controls for quantity or price when your permissions allow.
- Confirm the subtotal, discounts, tax, surcharge when applicable, and amount due.

For serialized items, a quantity and serial mismatch must be corrected before payment.

Revision #1
