# How to Search for a Product by Name

1. Confirm the register is in Sale mode.
2. Click the product search field.
3. Type a useful part of the product name.
4. Review the matching products, price, and availability.
5. Select the correct product.
6. Enter quantity when needed and select **Add**.

Name search is helpful when no barcode is available. Confirm the exact variation, condition, and price before adding it.
